CVMC Cruise to Blackstone May 12, 2007

Nine of us met at the Tractor Supply for a Cruise to Blackstone. It was a warm and sunny day and traffic was great once we got away from the Brandermill area of Hull Street Road.

The ride to Blackstone went off without a hitch thanks to the coordination efforts of Mike Cole & Mac Osborne, thanks guys!

When we arrived Mac had everything blocked off for us in the Wal-Mart parking lot. There were a couple of locals already there and some more showed up later in the day. CVMC also had 2 more members show up later on.

Everyone had a great time and it was loads of fun meeting new faces. CVMC looks forward to coming back to Blackstone again.

***CVMC At The
National Memorial Day
Parade
May 28, 2007***

***National Memorial Day Parade
Washington, D.C.
May 28, 2007 – Monday***

It was a great day for the "National Memorial Day Parade"! I met Greer Fullerton, Gary Ross, Rusty Wiseman and Betty Wiseman at the TA Truck Stop at the Lewistown Road exit. We left at 8:45am and proceeded north on I-95 and yes I did behave myself. The traffic was not a problem at all and we made to the hotel where Kathy was staying in a little less than an 1½ hours.

At 11am we departed for the parade assembly area along the Mall. We all arrived without a problem and were promptly parked and in no time at all we were ready for the parade.

We spent the next 3 hours hanging around taking in the sites and sounds of the Mall in D.C.

We went into the National Art Museum to the cafeteria for a quick lunch and we got to see some great works of art like the following.

Before you knew it the parade had started and we were off on our 3rd National Memorial Day Parade. Of course our fearless leader Kathy McWilliams led the way. We were honored to escort the Marine Corp Vet League again this year. I hope they will continue to ride with us in the future.

CVMC wants to extend our heart felt gratitude to our Veterans past, present and future for their sacrifices for our country. Without them we would not have the freedoms that we take for granted each and every day of our lives. Let us hope that those freedoms will continue for the generations to come. Thank you to all our Veterans!!!

I also want to thank Kathy McWilliams for all of her efforts in planning CVMC's participation in the National Memorial Day Parade. I know from experience that it takes a lot of work to put this together. She did all of this for all of us at CVMC. We only had 5 CVMC members at the parade. The other 2 who joined us were friends

of a couple of members. The least we can do is have a good turnout next year for our Vets and for Kathy's hard work. It is the very least we as members of CVMC can do.

By Brenda Jones

President Gordon Martin called the meeting to order at 7:40 p.m. He asked if we had any visitors. We had 1. He was Van Siseen. He has an 2002 V6 mustang. Our newest member Ray Newsome presented us with a challenge. He presented Gordon with an envelope with 6 sponsorships for the show. The challenge comes from the fact that Ray is only 14. These sponsorships represent 600.00 for the show. Ray and his family are leaving for Disney World on Sunday. We all wished him well .

Ron Martin gave the treasurer's report. We had a motion to accept it by Tony Hall and it was seconded by David Lythgoe. It was approved by the membership. Gordon said we have had some extra signs made up and are in the process of putting another sign on the other side of the trailer.

George Bobrovsky gave us a report on the spring show. We cleared 1300.00. He thanked everyone who came out and helped. We had 74 cars. If we had had good weather we could have doubled it.

Car Hobbyist News From the Council

By Fred Fann

It took over 9 months but we finally have a response from the Attorney General's office on the law that governs the stickers/registration fees for localities. You may recall that we have been discussing this at council meetings for the last couple of years. State law says that localities cannot charge more than the state for sticker or registration fees. Some localities have been not only been charging more than the state does for antique vehicle fees but also they have been doing so every year. DMV, a state agency, only charges a one time fee for antiques. I wrote Governor Kaine in July 2006 requesting that he ask for an Attorney General official

opinion so that we can get this issue clarified. His staff sent a letter to the state transportation secretary who in turn forwarded the request to the AG office.

The AG office didn't do anything with this for months. I contacted the governor's office in November and December. A person with the governor's office told me the AG's office lost the request but would respond within 30 days. Finally I wrote the Attorney General asking that his office issue an opinion. In May I was contacted by the AG's office and told that while the opinion request was not done correctly that we would still get an opinion within 60 days. About 10 days later I got a letter stating that no opinion would be issued because the request was not done correctly.

I have checked the statute cited in the letter and the AG's office is correct; the governor's office did not correctly ask for an opinion. When asked the AG's office could not give me a reason why it took so many months for them to respond.

We do have some choices and I will discuss them at the next council meeting. What I do need is for you to contact me if your city or county charges in excess of \$10 for stickers/registration fees for vehicles registered as antiques. If your city or county charges a fee every year for vehicles registered as antiques I also need that information. This information will help us with making a decision on what to do next. You can email me at fred@iloveoldcars.com or call me at 804-590-9583. Thanks for you help with this!

I have seen the draft of the new antique license plate applicant certification. If you would like a copy email me your fax number. There is one part of the form that may be confusing. I am hoping it will be changed before the form goes into use on July 1. As you know the antique vehicle registration law changes on that date. Everyone who owns a vehicle registered as an antique will have to certify that they know the law governing the use of antique vehicles

and that the vehicle complies with the safety requirements for the year of manufacture. If you have any questions or concerns about this please contact me.

After the Supreme Court decision that the EPA can regulate so called greenhouse gases President Bush has ordered several agencies to find a way to regulate vehicle emissions. He ordered this be done by 2008 but since Bush leaves office in January 2009 it is doubtful much will be done. The Bush administration has resisted action on global warming however the 5 – 4 court decision forced a response.

The ethanol craze is driving more demand for corn. More corn is being planted and in Virginia plantings are up 8.3% from last year. Nationwide the corn crop will be up 15% from 2006. Problems with an increase in corn production include: the planting of other crops will decrease, higher animal feed costs and concerns about pollution especially near the Chesapeake Bay. With gasoline prices increasing by the day we can expect more demand for ethanol.
