CVMC News

Central Virginia Mustang Club's 10th ANNUAL SPRING CAR SHOW May 2, 2015

Saturday May 2nd, 2015, was a beautiful day for a Car Show. The weather was perfect!

The Show Cars were a fantastic assortment and we at CVMC would like to thank everyone who participated in our 10th Annual Spring Show. Without you it would not have been a great show that it was.

CVMC would also like to thank John Clor from Ford Performance for attending our show. If you have never talked to John you are missing a great source of information about the Mustang, Ford Performance, SVT and Ford Motor Company. We hope he will return for our Fall Show. Keep your fingers crossed.

Last but not least CVMC would like to thank **Dave Thomas** our Spring Show Chairman and **ALL** of the volunteers who made the show run very smoothly. Without you there wouldn't be a show.

CVMC Looks forward to next year's 11th Annual Spring Show!!!

Be sure to present your CVMC
Membership Card for a Club Discount
on parts in their Parts Department

***Mustang Club Discount
At Richmond Ford
Lincoln & Richmond
Ford West***

We have traditionally offered a
10% discount on parts for all members
of the Central Virginia Mustang Club
and the Victory Mustang Club.

Effective immediately, I would
like to expand this discount to include
a Parts and Service discount of 10% at
either of our locations.

Obviously, this discount cannot
be combined with other discounts we
run from time to time, but I want to
provide their members the best value
we can.

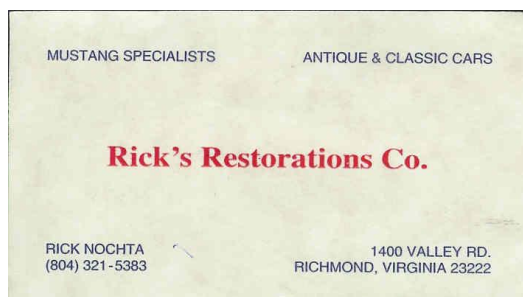

Please set up an account in
your department to track and offer this
discount.

In addition, when members
from either club are interested in
purchasing a new or pre-owned
vehicle, we should be working from
our cost, not suggested retail pricing.

Please forward to all affected
personnel.

**Ron Kody
President**

Richmond Ford Lincoln
Richmond Ford West

Rick Nochta has been restoring Mustangs since 1985. To better serve the Mustang hobbyist, Rick became a MCA certified and gold card judge for 65-70 Shelbys and Shelby American Automobile Club (SAAC) 1965 Shelby Head Judge. SAAC asked Rick to rewrite the 65-66 Shelby judging rules which are used today. For all your Mustang needs, call Rick today at 804-321-5383.

***Mustang Night Cruise
At Extra Billy's BBQ
May 2nd, 2015***

Extra Billy's BBQ's Mustang
Cruise In was originally scheduled for
April 25, 2015 but was postponed to
May 2nd, 2015, due to inclement
weather. That was a good idea
because the weather was perfect.

They had a large number of
Mustang's from different clubs, CVMC
included and the parking lot was full.

The food was great! Be sure to
check out this Cruise In throughout
the season every Saturday night.

CVMC Sticker

About 6 months ago CVMC acquired a new batch of Club stickers. There was a mistake made with those stickers which was my fault (Tony Hall). The mistake was the pony in the Logo was not white it was clear.

I now have a new batch of stickers which is correct. If you wish you can bring the old sticker to a meeting or event and I will replace it with a new one. You can also mail it to the CVMC P.O. Box and we will mail one back to you.

31st Annual Ford and Mustang Show - Date Change!

- *Date: September 19, 2015*
- *Rain date: September 26, 2015*
- *Location: Bass Pro Shops, 11550 Lakeridge Parkway, Ashland, VA*
- *Vehicle Limit: 155 cars*
- *Show Chairperson: Kathy McWilliams*
- *Please notice the date change from September 12th to 19th. The date needed to change to avoid a conflict with the fall race at RIR. The website and flyers have all changed, please go to*
<http://www.centralvamustang.com>

</show/fall/index.html> to print new flyers.

- The show registration online and mail-in forms are now available! Also a one-sided flyer is also available to easily print and distribute at your favorite cruise-ins or Ford gatherings.
- Now offering pre-order on show t-shirts, be sure to get the sizes you need! All sizes \$19.
- We are pleased to announce Mustang Don will return as a major sponsor. Thank you, Don & Terri Rositch!
- We had an outstanding turnout on volunteers in 2014; I hope you will consider returning or joining the team!

If you have a 2015 Mustang, please contact me at
show@centralvamustang.com

"The Tail of the Dragon"

It's a Mustang "Cruise Trip"
I am working on a long weekend trip cruise to "The Tail of the Dragon" in the heart of the Great Smokey Mountains in Western North Carolina. This should be an awesome trip cruise for the club! I am in the process of getting all the information to pass along to all the members. We are looking to do this around the first week in October. As soon as I have all the information on this awesome weekend you will receive a e-mail with all the details, in the mean time you can Goggle "Tail of the Dragon" and view the awesome ride and information about our planned trip. Please be sure to attend the February CVMC meeting as I will have further information for you.

UPDATE!!!!

We have several people, couples, signed up for this fun filled weekend. If you are planning to go remember your registration for the motel must be in by May 1, 2015. Below you will find the complete information on this cruise. Please call me if you have any questions on this event 804-840-8497 and remember to E-Mail me first before you call the motel and let me know how many is in your party. this is going to be an awesome Tail of the Dragon fun weekend!!!!

To ALL CVMC Members and their families:

Here is the information on our Cruise In to "Tail of the Dragon" Please view and read ALL of the attachments and my e-mail on this cruise. This has been discussed at our meetings and we are ready to cruise. Should you have any questions you can e-mail me at director6@centralvamustang.com or call me at 804-272-4007.

Please follow all directions carefully to allow this event to be successful and fun:

CVMC Cruise to: Tail Of The Dragon Great Smokey Mountains. For Info on Tail Of The Dragon run please

Google "Tail of the Dragon" it's really awesome!

- **When:** Leave Richmond Friday morning October 2nd, 2015 Tail of the Dragon run Saturday, return home Sunday October 4 Travel time: approx. 7-8 hours 468 miles (good Mustang run). We will have dinner Saturday night as a group. Departure from Richmond Friday TBD. Our travel route to the hotel will be posted at a later time.
- **Accommodations:** Please read this section carefully to insure you will have a room.

We will be staying at the Luxbury Inn & Suites, 805 Foothills Mall Drive, Maryville, TN 37801 their phone number to place your reservation is Toll Free 1-800-780-9839.

- I have reserved a block of rooms (21) for our club.
- This block of rooms is ONLY reserved until May 1, 2015, The special rate is only good until May 1, 2015. Any reservations made after this date would be on room availability and will not be at the "club rate".
- If you plan to attend please before this date call the hotel and reserve a room.

Call or Email Mark Abrams for your copies of the 3 attachments, 1: Hotel Information, 2: Hotel Rates and 3: Room Layouts

If you have any questions on the three attachments you can call the hotel and they will be happy to assist you and answer any questions you may have.

PLEASE BEFORE YOU CALL THE HOTEL TO MAKE RESERVATIONS: Send me first an e-mail with the following information (EMail listed above).

Your name, phone number, email address, how many in your party. It's important that I have this prior to you making your reservations! Once you e-mail me this information you can immediately contact the hotel.

I think I have covered most of the information and I am sure you will have questions, please do not hesitate

to call me or e-mail me any questions that you may have, remember I will post at a later date what time we will leave on Friday and the route we will take. We will also have discussions and up-dates at our regular meetings.

Thanks,
Mark Abrams

MCA Report

I received the following additions to the January 2015 Board of Directors (BOD) meeting:

- A motion was made by past president Steve Prewitt to

reimburse National Directors in the amount of \$250.00 per meeting, to offset a small portion of their expenses incurred, starting with the April 2015 meeting. Those Directors must attend the meeting, and present a reimbursement form to receive the stipend. The motion was passed.

- The former treasurer has resigned his Board position and George Magro will receive a two-year term. From election results George was next in line for a position on the Board.

Important 2015 location and meeting dates for the following:

- April 25 Board of Directors meeting in Dallas, TX
- August 8 Board of Directors meeting in Dallas, TX
- October 9 Judges meeting, 10th is the Regional Director Summit, and 11th will be the Board of Directors in Indianapolis, IN
- All dates were approved unanimously.

The MCA National show this month (22 to 24) in Grovetown, GA is at the Columbia County Exhibition Center, 212 Partnership Dr. The host hotel, the Holiday Inn Augusta West is SOLD OUT as is The Hampton Inn, on Jimmie Dyess Pkwy.

- The Double Tree, 2651 Perimeter Pkwy, August, GA (706) 855-8100 have rooms available. Use code GSS
- The Hampton Inn, 2171 Gordon Hwy, August, GA (706) 396-5500 have King and Queen Beds available. Use code GSS

Wingate, 4087 Jimmie Dyess Pkwy, Augusta, GA (706) 860-8223. Use code Mustang Club

The 2015 Grand National show, September 3 to 6, is in Columbus, Ohio. The host hotel is the Polaris Hilton & Comfort Inn North/Polaris are sold out. This is the 1st time, ever, that an MCA Grand National show has been sold out 5 months ahead of the show date. The host club has a waiting list. With membership growing along with 6 generations of Mustangs more Mustangers are now attending

our shows. This is the reason I urge everyone to register as early as possible. If an emergency comes up you can always cancel your hotel reservations.

Our 10th Annual May Spring show is now published in Mustang Times. The correct date for our 31st fall show on 19 September is now published in the events section of MCA's website and soon to be published in Mustang Times magazine. It has also been posted on National Capital Region Mustang Clubs September events calendar.

For those of you that subscribe to Mustang Monthly magazine take a look or pick up the May issue at a newsstand. On pages 58 to 66 is an article (with pictures) on early Mustang Concept cars and some accessories that did not make it to production. It was a very interesting article for me.

As a member of MCA the Mustang Times (M.T.) magazine is included with your membership. Donald Farr (former Mustang Monthly editor) is now M.T. editor and the magazine has added more pages. There is important information on judging issues, wonderful articles and pictures on various shows and activities, articles from National shows and a list of those who won awards at those shows. There is information on new or hard to get remanufactured Mustang parts. Also Ford 'X' plan pricing is available on all Ford products, except the Shelby's, which could result in a savings of thousands of dollars on your new 2015 Mustang. If you want to join MCA, please see me during the break:

There is a new Facebook Mustang Club devoted to just 6 cylinder Mustangs of all years. This club has no dues and the newsletter is online. The website is [mustang6association](http://mustang6association.com) or just M6A.

Check our newsletter, club and Facebook websites for other upcoming parades, shows and cruise-ins in the Richmond metro area.

***LOGANO DRIVES
MUSTANG TO NASCAR
XFINITY WIN AT
TALLADEGA
MAY 2, 2015 /
TALLADEGA, ALABAMA***

Ford Finishing Order:

1st – Joey Logano
6th – Chris Buescher
7th – Elliott Sadler
10th – Aric Almirola
20th – Darrell Wallace Jr.
22nd – Dakoda Armstrong
32nd – Ryan Reed

JOEY LOGANO -- No. 22
Discount Tire Ford Mustang --

VICTORY LANE INTERVIEW -- HOW DID YOU DO THAT? "It's such a fast Discount Tire Ford. Tab Boyd, my spotter, he's on it. We spent a lot of time before Daytona to figure out these superspeedways and we watched some more footage before we came down here just trying to understand the differences between Talladega and Daytona and it's just so cool. It's like a combination of the old school draft and the cars hooking up and bumping, so it's kind of a combo of what's going on out there, but it's so fun and so intense. I'm still trying to catch my breath, but it's so intense out there and you're looking at everything in the mirror the whole time, so it was cool to get this thing in victory lane. Our pit coach, Brian Haaland, his dad passed away this week so we know he was riding along with us."

CHRIS BUESCHER -- No. 60 Bit-O-Honey Ford Mustang -- "We were close. The 22, it's a product of this racing, he moved up and he blocked us when we had that final run that we needed there at the end. We just couldn't do anything with it. This Bit-O-Honey Ford Mustang was fast today. We knew it was good in the draft. We had a good chance out there, it just didn't quite work out." ONCE YOU GOT EVEN IN THE OUTSIDE LANE DID YOU THINK YOU WERE GOING TO GET A PUSH TO PASS HIM? "Yeah, the 33 did a heck of a job pushing us there, and honestly it would have been enough, but we just got a block thrown on us there at the end. It is what it is. It's Talladega. Restrictor plate racing." HOW HARD IS IT TO HOLD YOUR POSITION WITH ONE TO GO? "It's wild. Guys are constantly moving you around and we were free. We had guys really shoving us hard and just made it really loose and hard to hold onto there at the end. It was tough to just hold onto that position and keep it until the end. A lot of things could have gone a little bit better there at the end and a lot of things could have gone a lot worse, so not a bad day for us."

DARRELL WALLACE JR. -- No. 6 Sponge Bob Square Pants Ford Mustang -- "I think I'm batting 1.000 on not causing any wrecks, but always being caught up in somebody else's. It was a frustrating day from really lap two. It's a good thing we've got a break so we can regroup and head into Iowa. Talladega hasn't always been good to me, so we salvaged a top 20 finish and we'll just have to build off of it."

RYAN REED -- No. 16 Lilly/American Diabetes Association Ford Mustang -- "It was frustrating. I knew getting to pit road there was gonna be a fiasco and they were like, 'You know what, you've got plenty of fuel just bail out of there.' But people just tried to force the issue and make something happen when they didn't need to and I got caught up in someone else's mistake. We had a fast Ford Mustang. Me and Chris were trying to work the top and I felt like we got it going and we were really just experimenting, and I knew we were gonna be fine if we got to the end and obviously didn't get that opportunity. We tore up a fast race car, which is bad, but we'll go to Iowa and get them there."

ARIC ALMIROLA -- No. 98 Shelby American Ford Mustang -- "I really thought I was in the catbird's seat coming to two to go with where I was sitting, and then the 60 surprised me. The 60 jumped out a little sooner than I thought he was going to. To jump out and try to make a move with two to go, I thought, was pretty bold. I think we might have had something with him if we would have stayed hooked up for maybe another lap, but he made the move and that kind of hosed us. The 7 was behind me and he just couldn't keep up. I don't know if he had too much damage or what, but he couldn't keep up and push. That was kind of the turning point for our race with two to go, but other than that it was a great day for us. I'm really proud of everybody at Biagi DenBeste Racing. I think that's two restrictor plate races in a row we had a shot to win and we were right up there

in the front in the closing laps. All in all it was a good day for us. I wish we would have gone to victory lane, but it was a lot of fun nonetheless."

DAKODA ARMSTRONG -- No. 43 WinField Ford Mustang -- "The first part of the race we were good. We were up there running third and went to pit and all of that wrecking happened. We were already on pit road, so we just decided to pit and they penalized us. That got us stuck back in the rear and then we got caught up in that last wreck. We fixed all the damage and then someone blew up in front of me on the restart and they penalized me for passing, so we had to do a green flag pit stop at the end and that ruined it for us. The car seemed good, but we just didn't survive it."

JOEY LOGANO PRESS CONFERENCE – THIS IS YOUR THIRD XFINITY WIN OF THE SEASON.

"There's never a Talladega win that comes easy or not intense at the end of the race. You never know you've got it until the end, just like every other superspeedway race that we have. We were doing good. We got up to the lead towards the middle part of the race and as soon as we started making our green flag stop they were wrecking all over the place. I think everyone is OK on pit road. I didn't really hear if anyone got hurt. I hope everyone is alright because that was a scary hit on the inside pit wall. There are a lot of people standing on that thing a lot of times and really close and I had a front row view of that and it scared me watching it. Hopefully, everyone is alright there, but when that happened we lost all of our track position back to 12th or so, and then the next restart we were in the wrong lane and went backwards to 15th and then we got in the right lane and started moving forward and being able to get ourselves some track position back throughout those restarts. Towards the end it was having the right people behind you, making the right moves, making the right blocks and trying to get yourself that clean air in the front, and then really it's just

all in the mirror. I kept looking in the mirror trying to figure it out. It's cool to get our third win of the season right now. This is a pretty special season so far. I've had some really fast race cars and everyone is doing an awesome job. Tab Boyd, my spotter, once again on the superspeedways did an awesome job today giving me the information I needed to make decisions out there."

GREG ERWIN, Crew Chief -- No. 22 Discount Tire Ford Mustang -- "It was pretty exciting. I love racing probably as much or more than anybody standing in the stands out there. I'm excited. I'm excited to watch this 22 car go to victory lane. The whole program has been so close to a speedway win for the last couple of wins. If you think back to last season and 2013 and even Daytona we've been right there. We lost a couple of them by hundredths of a second, so I'm happy for all the guys that bolt these cars together and our aero program and the plate program, the engine shop, a terrific job. This is kind of a catapult thing to finally break through and get that cloud out from over your head. You watched those last races and I just sit back and kind of cheer because Tab and Joey did what they did at the Daytona 500 and wound up winning the race. You've got to give it to him."

HOW FULL WERE YOUR EARS OVER THE FINAL LAPS FROM GREG AND TAB? "Actually, we were talking right before we came back down for the green and it's important for me to know how many laps are left, and I wanted a countdown. Greg said he would give them to me, but I was like, 'No, no, feed them to Tab and let him call them off.' There's so much information that the spotter is feeding you here and you've got to be able to take it all in. If Greg was to get on the radio for one second that might have been that piece of information I needed to stay out front or get in the front because two people can't talk at the same time. That's what I'm trying to say. I didn't want them talking over each other, so I just needed one

person to be able to listen to everything he's saying and try to process it and take it all in and try to picture in your mind what he's saying and at the same time looking in the mirror and seeing what you can see, and then making those decisions from there."

WAS THERE ANY POINT ON THE FINAL LAP WHEN THEY JUST SHUT UP? "No. I'd be mad if they did. Tell me something. Tab has as much emotion as me, if not more, and I think that's really cool. He wants to win these things just as bad as I do and I think he screams on the radio louder than I do when we're about to get the win. Winning superspeedway races are a lot of fun because you just don't know until you get there. When you get there it's so large because you just don't know until you're there. Off of four you still don't know you've won the race. Typically off of four you know if you've won the race or not, but here you have no idea until you get there."

WHAT'S GOING ON WITH PENSKE WINNING ALL OF THESE RESTRICTOR PLATE RACES LATELY? "Just like every other race track it takes the whole package to make it work. I think you've got to have a fast race car to go out there and have a chance to win a race, and you have to have a car that can drive good also. Sometimes a fast race car that's out of control isn't quite the answer either. You've got to have something that you can, as a driver, make aggressive moves and do those things to get yourself towards the front. Today, we had a Discount Tire Ford that could do that, and at the same time it's about the spotter and the driver being able to jell and be able to basically I need Tab to be able to know what I'm thinking, so he can give me the information to make the move that he knows I'm thinking. The more the two of us can communicate about it and talk about it and we watch it just so he understands where my head is at during certain parts of the race and as we're building runs he kind of has an idea of where I'm going to go with it,

what I'm going to do, so he can help me make that happen."

HOW CRAZY WAS IT GETTING THROUGH TRAFFIC AND STAYING OUT OF TROUBLE? "It's always crazy, for sure. When you're sitting 15th with 20 to go it's like, 'This is kind of where the crashed happen around 15th or 10th and this is not where I want to be,' so you just want to get through it as quick as you can and position yourself. You're too late to really wait for a crash, you've got to go and get up there. There are definitely plenty of close calls. There are a lot of close calls the first lap of the race, the first two laps I saw it in front of me. They about crashed there and they ended up crashing on the backstretch."

GREG ERWIN CONTINUED - "We got up to fourth and then they wrecked right back where we were running at the restart, so he had to go."

JOEY LOGANO CONTINUED - "There's no safe place. I've been crashed running third here before and I've been crashed running 30th. There's no safe place. For that reason it's just intense the whole time. You can't ever relax for a second."

News From The Blue Oval

FORD ANNOUNCES LIMITED RUN FOR 2015 SHELBY GT350; ONLY 37 GT350R MODELS TO BE BUILT

APR 28, 2015 | DEARBORN, MICH

- Ford to produce limited run of 2015 Shelby® GT350 to commemorate the nameplate's 50th anniversary
- 2015 Shelby GT350 comes with a unique 2015 VIN – the envy of Shelby enthusiasts everywhere
- Limited run of 37 Shelby GT350R models to be built in homage to original GT350 competition model of 1965

In recognition of the 50th anniversary of the Shelby GT350, Ford will build a limited run of Shelby GT350 and GT350R Mustangs for 2015.

The original Shelby GT350, introduced in 1965, established Mustang's performance credentials on racetracks around the world. The all-new Shelby GT350, featuring the most powerful naturally aspirated Ford production engine ever, re-establishes Mustang as a world-class sports car.

Only 100 Shelby GT350 models will feature a 2015 model year

designation before production switches over to 2016. Of these, 50 will be equipped with the Technology Package and 50 equipped with the Track Package.

"Fans of the Shelby brand are among the most passionate in the automotive industry," said Henry Ford III, Ford Performance marketing manager. "To honor the passion of our fans for Shelby GT350's 50th anniversary, a limited run of GT350 models will be built in 2015; these cars will be highly coveted by both Mustang and Shelby enthusiasts alike."

2015 Shelby GT350R:
Celebrating 50 years of a pony car legend. In 1965, Carroll Shelby developed and sold an FIA-homologated Mustang called the Shelby GT350 competition model. This race-ready Mustang took to tracks around the world, competing in the most prestigious races and against the stiffest competition there was. In addition to winning the Sports Car Club of America's B Production national championship in 1965, 1966 and 1967, the car entered races throughout South America and Europe, including the 1967 24 Hours of Le Mans.

There is heated debate among Shelby enthusiasts over how many 1965 GT350 competition models were built during the extremely limited production run. While Carroll Shelby insisted two prototype cars and 35 production models were built, most records show only 34 production models received serial numbers from the Shelby production facility.

For 2015, Ford will make sure there is no confusion about the number of GT350R models constructed; 37 cars will be built in Carroll Shelby's memory.

News from the Car Club Council

Our General Assembly session has been over for a while but Maryland's just ended. It looks like Maryland car hobbyists may get a single license plate bill. They only need the governor to sign it into law. The big change was that only vehicles 50 or more years old can go with the single rear license plate. It wasn't the bill they wanted but if signed into law it would be the only state to pass any kind of one plate bill this year. Several other states – including Virginia – had bills for single plates and all of them failed. Another interesting fact from Maryland is that vehicles can be registered as historic if they are only 20 years old. From SEMA:

"Legislation (S.B. 782/H.B. 811) to increase the age requirement for vehicles eligible for registration as "historic motor vehicles" in Maryland died when the legislature adjourned for the year. Under the House version of the bill, the age requirement would have been raised from 20 to at least 30 years old, making it more difficult to register legitimate historic vehicles, which are already limited to club activities, exhibitions, tours, parades and occasional pleasure driving. The measure also would have denied all 20 – 30 year old vehicles certain benefits, including the special historic license plate, reduced registration fees and exemptions from equipment and emissions inspection requirements. The bill sought to address unsubstantiated claims of abuse without providing any real data. The MVA is already authorized by regulation to suspend the registration of any historic vehicle for use that is

inconsistent with the registration requirements."

If Maryland does get a single plate for vehicles 50+ years ago does that change anything in Virginia? The quick answer is no; Virginia State Police and just about everyone in the legislature appears to be strongly opposed to a single plate. Only those years when the state issued single plates can one plate be used: 1906, 1907, 1908, 1909, 1945, and 1946.

There is one last item of interest from the 2015 Virginia General Assembly session: SB 965 Government Data Collection and Dissemination Practices Act; limitation on collection: **Government Data Collection and Dissemination Practices Act; collection and use of personal information by law-enforcement agencies.** Provides that, unless a criminal or administrative warrant has been issued, law-enforcement and regulatory agencies shall not use surveillance technology to collect or maintain personal information where such data is of unknown relevance and is not intended for prompt evaluation and potential use regarding suspected criminal activity or terrorism by any individual or organization. The bill authorizes law-enforcement agencies to collect information from license plate readers, provided that such information is held for no more than seven days, and is not subject to any outside inquiries or internal usage, except in the investigation of a crime or missing persons report. After seven days, such collected information must be purged from the system unless it is being utilized in an ongoing investigation. The bill also adds to the definition of "personal information" vehicle license plate numbers and information that affords a basis for inferring an individual's presence at any place. This bill is identical to HB 1673.

The governor has made some recommendations on this bill that would change its intent. It will be interesting to see if the members of the Assembly go against the governor.

There have been a lot of discussion on the use of license plate readers and the length of time the information can be kept. Using the info gathered from the readers law enforcement could track movements and even predict where a person would be on a certain day and time – a real privacy issue.

On the federal front Environmental Protection Agency Administrator Gina McCarthy says the new smog rules may be "controversial" but they are among the administration's top priorities. In November the agency stated they are considering new lower ozone levels. Currently the level is 75 parts per billion and the agency is looking at lowering to 65 – 70 and taking comments on the 60 ppb level. Why the lower levels – the short answer is lawsuits by environmentalists. The American Lung Association and environmental groups want the ozone level in the 60 to 65 ppb range. The EPA should make a final decision this fall.

The National Association of Manufacturers commissioned a study by NERA Economic Consulting and the resulting impact of 65 ppb of ozone would be:

- Reduce U.S. GDP by \$140 billion per year and \$1.7 trillion from 2017 to 2040
- Result in 1.4 million fewer job equivalents on average through 2040
- Cost the average U.S. household \$830 per year in the form of lost consumption

This would make the new standard the costliest in United States history. Of course the EPA isn't worried a bit about cost. It is very unfortunate that lobbyists have been allowed to influence the EPA.
